DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
- Claims 1-6 are rejected under 35 U.S.C. 102(a) as being anticipated by JP 2000-067898. The reference is directed to a fuel cell system comprising a fuel cell (11), and first and second hydrogen occluding devices (14, 15) located downstream from the anode outlet (see abstract; Fig. 2). The devices are inherently "easily hydrogen occluding" and "easily hydrogen releasing." The second device (15) is capable of occluding hydrogen released from the first device (14). Regarding claim 2, the devices are connected to the anode inlet line (18) such that hydrogen may be supplied from the devices to the fuel cell. Regarding claims 3 and 4, the release of hydrogen is controlled by a heating loop (50). Regarding claim 5, the devices are flow-through type tanks. Regarding claim 6, a heat exchanger (42) is provided in a supply conduit to the fuel cell.

Thus, the instant claims are anticipated.

Art Unit: 1746

Conclusion

Any inquiry concerning this communication or earlier communications from the 3. examiner should be directed to Jonathan Crepeau whose telephone number is (571) 272-1299. The examiner can normally be reached Monday-Friday from 9:30 AM - 6:00 PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr, can be reached at (571) 272-1414. The phone number for the organization where this application or proceeding is assigned is (571) 272-1700. Documents may be faxed to the central fax server at (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
